FANCY TOWELS

SUPPLY LIST

Towel, any size

Embroidery design of your choice

Ribbon or trim for the towel—width of towel plus 3”

Embroidery threads for your design

Stabilizer—Aqua Mesh Plus is preferred, but you must wash the towel before using. You can also use Badgemaster. If the towel is a gift and you do not want to wash the towel, you can use a tear-away. Several layers of Lightweight Tear-Away will be easier and neater to remove than Clean and Tear or Soft Touch Tear-Away, but you can use any of these. If you use Badgemaster or a tear-away you will also need 505 Adhesive Spray. DO NOT use a sticky back tear-away such as Stabil-Stick.

Topping—Sulky Solvy regular weight or OESD Topping

Fine craft netting can be helpful, but it is not appropriate for all designs.

Needle—Size 90 Schmetz embroidery needle works great.

Edge stitch foot—Bernina is #10. If you have a 180, 200 or 730 you will need #10C

Straight pins

Marking pen or pencil

18” or longer ruler

6” ruler

Fray Check

Extra bobbin

Curved blade thread snips

Hoops and hoop templates

Embroidery machine, cords, embroidery presser foot, thread caps and foot control if needed
